# Intuitive Readings

Clarity. Awareness. Inspiration.

## THE MAGICIAN

“As above, so below.”  
Directing energy toward  
a desired result.

## PURPOSE

My work serves as a catalyst for growth and transformation within individuals. Combining practicality with spirituality, I help individuals find their focus and identify options for creating and living their vision.

## GOAL

My goal is to awaken and inspire people, helping them become aware of options for making their dream a reality. Clients find my work valuable because it helps them identify what is really going on in their lives so they can make more informed choices when they stand at a crossroads. The reading serves to heighten a client’s awareness, sharpen his or her focus, and empowers the client to take responsibility for creating the desired future.

My clients tell me when they leave a session they feel clear, focused, energized, independent, hopeful, and more at peace. They come to appreciate the process of following their path, rather than putting happiness and fulfillment on hold until they reach a certain goal. Most importantly, they say they go back into the world with a sense of purpose, aware of the wisdom they carry within themselves.

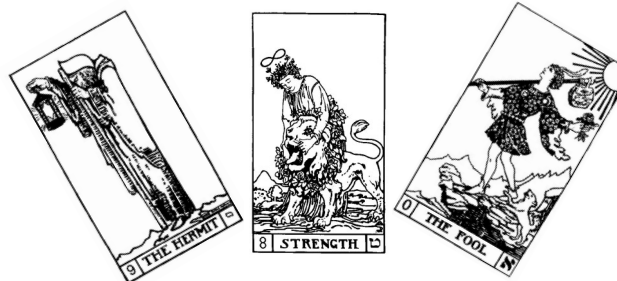

## BENEFITS OF A READING

My readings help a client clearly identify present circumstances, the desired future, and ways to create that future. Clients report these benefits (and more) from a reading:

- ◇ **Clarity** about what is really going on in their lives and what to do next.
- ◇ **Awareness** of limiting beliefs, repressed issues, or barriers to achieving a specific goal, as well as options for achieving that goal.
- ◇ **Inspiration** to take charge of their destiny, work with the Universe to create a desired future, and appreciate the journey.

## READING TECHNIQUE

The reading is an interactive process that blends Tarot, Mediumship, Gestalt, and intuitive techniques. I serve as a conduit for spiritual insight during the reading and may ask a client for his or her impressions about certain symbols, creating a deep, meaningful, and personalized message for each client. In each reading, clients have time to ask specific questions and explore issues in detail.

The Magician, The Hermit, Strength, & The Fool cards from the B.O.T.A. Tarot deck.
